

Session - Pines Room

10:30-12:00	Monday June 1 - AF Adoption Moderator	
	Nolet et al	Ecological goods and services and agroforestry: The benefits for farmers and the interests for society
	Poppy et al	Communicating the economic and environmental impacts of agroforestry systems
	Pollock and de Gooijer	Around the globe and across Canada - the Agriculture Canada Agroforestry Division
1:30-4:00	Monday June 1 - Forest Farming Moderator	
	Chamberlain	Farming the forests of Appalachia: Opportunities and challenges
	Hagan et al	Production physiology of three native ornamental shrubs intercropped in a young longleaf pine plantation
	Sharashkin and Gold	Thirty million agroforesters: Russia's family gardens
	Lee et al	Root growth of <i>Codonopsis lanceolata</i> and <i>Panax ginseng</i> in several forests
	Kim et al	A short-term income crop for the understory of <i>Larix leptolepis</i> plantation
10:00-12:30	Wednesday June 3 - Production and Management Moderator	
	Feldhake	Seasonal differences in clear-sky nighttime forage temperature in proximity to deciduous trees
	Tamang et al	Microclimate modification by tree windbreaks in Florida farms
	Angima	Forage production under thinned Douglas-fir forest
	Coggeshall and Warmund	Nut productivity and spacing requirements of eastern black walnut cultivars used in Midwestern agroforestry-based plantings
	Macaulay et al	Murdoch lake agroforestry project

Session - Salon A

10:30-12:00	Monday June 1 - Carbon Sequestration / Carbon Markets Moderator
-------------	--

	Merwin et al	Estimating carbon stock change in agroforestry and family forestry practices
	Dube et al	Carbon dynamics in agroecosystems with <i>Pinus ponderosa</i> (Dougl. Ex Laws) and native pastures established on degraded volcanic soils in the Chilean Patagonia.
	Zamora et al	Carbon sequestration payments for landowners: Current options and future potentials in Minnesota
1:30-4:00	Monday June 1 - Bioenergy	
	Moderator	
	Schoeneberger	Agroforestry – Linking energy/food production/natural resource objectives on agricultural lands
	Bentrup et al	Riparian Forest Buffers: Building a Sustainable Bioenergy Future
	Kopecky	Wood ash from bioenergy applications as a soil amendment for crop production
	Zamora et al	Productivity and energy Content of hybrid poplar clones in West-Central Minnesota
	Shannon	Poplar Clonal Trial in Saskatchewan
10:00-12:30	Wednesday June 3 - Agro-ecosystem Interactions	
	Moderator	
	Quinn et al	Do woodland birds suppress crop pests: Community relationships on organic farms
	Berges et al	Bird species diversity in riparian buffers, row crop fields, and grazed pastures of two agriculturally dominated watersheds
	Gordon et al	Evaluating productivity of Mississippi alley cropping for production and wildlife habitat
	Bank et al	The relationship between landscape complexity and wild bee pollination services to canola (<i>Brassica napus</i>) in the aspen parkland region of Canada
	Feldhake et al	Establishment and production from thinned mature deciduous-forest silvopastures in Appalachia

Session - Columbia Room

10:30-12:00 **Monday June 1 - Water Quality**
Moderator

	Willett (Drost) et al	Streambank erosion rates of small Missouri streams
	Tufekcioglu	Streambank erosion from grazed pastures, grass filters and forest buffers over a six-year period
	Kult et al	Quantifying the impacts of concentrated flow on grass filters and riparian forest buffers
1:30-4:00	Monday June 1 - Upland Buffers	
	Moderator	
	Isenhardt et al	Emission of the greenhouse gas nitrous oxide (N2O) from riparian forest buffers, warm-season and cool-season grass filters and crop fields
	Boyer and Neel	Nitrate and fecal coliform concentrations in silvopasture and pasture leachates
	Kumar et al	CT-measured macropores as affected by agroforestry and grass buffers for grazed pasture systems
	Udawatta et al	Agroforestry and grass buffer effects on water quality on grazed pasture watersheds
	Lin et al	Introduction of atrazine-degrading <i>Pseudomonas</i> sp. strain ADP to enhance phytoremediation of atrazine
10:00-12:30	Wednesday June 3 - Soil Quality	
	Moderator	
	Knight et al	Riparian forests with and without grass filters as buffers of concentrated flow from crop fields
	Kremer and Kussman	Soil quality in a pecan agroforestry system is improved with intercropped Kura clover
	Nikiema and Nzokou	Effects of groundcover management practices in a Fraser fir (<i>Abies fraseri</i>)-cover crop intercropping system on soil microbial biomass and community catabolic diversity
	Rivest et al	Experiences from southern Quebec provide ecological insights for the implementation of tree-based intercropping systems
	Need to fill	
Session - Timberlands Room		
10:30-12:00	Monday June 1 - Economics and Marketing	
	Moderator	

	Burkhart and Jacobson	Financial aspects of indigenous medicinal forest plant cultivation in eastern North America.
	Farrell	Assessing the growth potential and future outlook for the US maple syrup industry
	Kowalski	Providing products and resources: The ForestFirst approach to agroforestry knowledge
1:30-4:00	Monday June 1 - Education, Training, Tech Transfer	
	Moderator	
	Demchik	Incorporating agroforestry into traditional forestry classes
	Hamilton et al	Introduction to Pine Silvopasture in the Southeast: Development and delivery of an online course and technical resource.
	Mudge and Gabriel	Practicum in forest farming at the MacDaniels nut grove
	Bentrup	Creatively communicating conservation complexity
	Idassi	Profitable farms and woodlands: A practical handbook in agroforestry for underserved and limited resources farmers and woodland owners
10:00-12:30	Wednesday June 3 - Cultural and Social Dimensions	
	Moderator	
	Bozic and Macaulay	Alberta woodlot extension program
	Barbieri and Valdivia	Recreational multifunctionality and its implications for agroforestry
	Brandle et al	The role of agroforestry practices in a healthy farm
	Aguilar et al	Frequency of consumption and preferences for chestnuts in Missouri
	Barbieri et al	Attendance motivations behind the Missouri chestnut roast festival
